

RECEIVING THROWS

The SS comes to the base facing the play so they are able to adjust their angle based on where the throw is coming from

Square body up to fielder making the play

Anchor right foot on back inside corner of 2B

1. Right foot is on back inside corner of the base (closest corner to LF) with body square to fielder making the play
2. Fingers of glove and throwing hand are pointing at player with the ball
3. Catch ball close to body
4. Correct hand positioning and catching the ball close to the body helps the fielder make a quicker exchange
